COR (Summary)

This is an early COR session, with no channeled entity.

COR discerns her origin and purpose

COR sees as a living flying saucer, sees others like her, realizes they are all going to Earth to help the humans. (19:20) Bob is a control, a receiver for the saucer people. Don [a person Bob and COR know] is part of COR's group, though his pattern is different than COR's. The saucer people have been helping COR and the few humans who are open to them. COR realizes she is not human, but one of them in human form. (35:30) She gets a sense of her mission and how she's to help Bob with his work.
